Yazhi Bubble UI

UI library Chat

YAZHI · BUBBLE UI · V0.1

One interface. Five landscapes.

Bubble UI is the surface every Yazhi app lives in: a conversation, a tray of bubbles and Mission Control. This page is the whole library — design system, components, modules, page templates and agents — live, in light and dark, and in each of the five Sangam landscapes.

Browse components Open Yazhi Chat

Palai Mullai Kurinji Marutham Neytal

Mist on the ridge. The mist parts where the pointer passes and closes behind it.

DESIGN

Themes

Sangam poetry sorts the world into five tinai, each a landscape with its own mood. Each is a whole theme here: a ground and an ink in light and dark, a way of moving, a living background, a figure and a persona with its own voice. Wrap any subtree in `<TinaiScope tinai="…">` and everything inside takes the landscape; change it and every surface cross-fades. Choosing a theme below dresses this whole page in it.

Palai · Mullai · Kurinji · Marutham · Neytal

MOUNTAINS

Kurinji

Mist on the ridge.

First meetings — curiosity and discovery, where a story starts.

LIGHT
High, cool and clear; violet ink, ridgelines layered into distance.

POINTER
The mist parts where the pointer passes and closes behind it.

USE FOR
Launches and first releases. Default home of Avai and onboarding.
